Complete Phase II MBBS Year planner

Week: 1 (Apr 5 – Apr 10)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
--	-------------	--	----------------	-------------------------------	-------------------	-------------------

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Mon	Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including: rheumatic/ valvular, ischemic, hypertrophic inflammatory IM 1.1, Integrated with Pathology and Physiology		Define and describe the principles of pharmacology and pharmacotherapeutics PH1.1		MI 1.1 Introduction & History Describe the different causative agents of Infectious diseases, the methods used in their detection, and discuss the role of microbes in health and disease(L1)	<div>SGD: Describe the basis of evidence-based medicine and therapeutic drug monitoring PH 1.2</div> <div>MI 1.1 & 1.2 Microscopy Perform and identify the different causative agents of Infectious diseases by Gram Stain, microscopy (SGD & DOAP)</div> <div>PA2.8 Identify and describe various forms of cell injuries, their manifestations and consequences in gross and microscopic specimens</div>
Tue	MI 1.1 Morphology of bacteria (L2)		Describe the role of a pathologist in diagnosis and management of disease; Enumerate common definitions and terms used in Pathology; Describe the history and evolution of Pathology PA 1.1-1.3		<ul style="list-style-type: none"> • Demonstrate knowledge of basics of Forensic Medicine like definitions of Forensic medicine, Clinical Forensic Medicine, • Forensic Pathology, State Medicine, Legal Medicine and Medical Jurisprudence • Describe history of Forensic Medicine FM 1.1 + FM 1.2 	<div>SGD Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behaviour CM2.3</div>

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Wed	Describe Basic concepts of homeostasis, enumerate the metabolic changes in injury and their mediators. SU 1.1		Describe various methods of health education with their advantages and limitations. CM 4.1		Describe various routes of drug administration PH1.11	Demonstrate and describe the steps in evaluation of health promotion and education program CM4.3
Thu	Demonstrate knowledge of the causes, mechanisms, types and effects of cell injury and their clinical significance; Describe the etiology of cell injury. Distinguish between reversible-irreversible injury: mechanisms; morphology of cell injury Identify and describe various forms of cell injuries, their manifestations and consequences in gross and microscopic specimens PA 2.1,2.2,2.8		Describe legal procedures including Criminal Procedure Code, Indian Penal Code, Indian Evidence Act, Civil and Criminal Cases, • Inquest (Police Inquest and Magistrate's Inquest), Cognizable and Non-cognizable offences • Describe Courts in India and their powers: Supreme Court, High Court, Sessions court, Magistrate's Court, Labour Court, Family Court, Executive Magistrate Court and Juvenile Justice Board FM1.3 + FM1.4			Describe Court procedures including issue of Summons, conduct money, types of witnesses, recording of evidence oath, affirmation, examination in chief, cross examination, re-examination and court questions, recording of evidence & conduct of doctor in witness box, 1.5
Fri	Holiday					
Sat	Define and discuss birth rate, maternal mortality and morbidity, perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit, still birth and abortion OG1.1, OG1.2, OG1.3	9 am – 11 am SGD Describe Medical Ethics and explain its historical emergence • Describe the Code of Medical Ethics 2002 conduct, Etiquette and Ethics in medical practice and	11 am – 1 pm Pandemic module 2.1 Infection Control: Part II Air borne precautions Contact Precautions Infection Control Committee (Part 1)		Extracurricular activities	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

		<p>unethical practices & the dichotomy • Describe the functions and role of Medical Council of India and State Medical Councils • Describe the Indian Medical Register • Explain Oath – Hippocrates, Charaka and Sushruta and procedure for administration of Oath. • Describe the modified Declaration of Geneva and its relevance</p> <p>4.1 + 4.2 +4.3+4.4+4.22+4.23</p> <p>Integrated with Pharmacology</p>

Week: 3 (Apr 19 – Apr 24)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Describe and discuss the aetiology microbiology pathogenies and clinical evolution of rheumatic fever, criteria, degree of rheumatic activity and rheumatic valvular heart disease and its complications including infective endocarditis. IM 1.3, Integrated with Pathology, Physiology and Microbiology		Describe absorption, distribution, metabolism & excretion of drugs (Pharmacokinetics) (part 3) PH 1.4		MI 1.3 Discuss the methods used in detection of common infectious diseases Define pathogenesis of common bacterial, viral, protozoal and helminthic diseases Describe the epidemiological basis of common infectious diseases(L5) Integrated with Pathology(HI) & General Medicine (VI)	<div>SGD: Describe nomenclature of drugs ie generic, branded drugs</div> <div>MI 8.6, 8.7 Hand hygiene and PPE, Biomedical waste management, Needle stick injury + MI 8.9 & 8.10 Laboratory diagnosis of bacterial infections Specimen collection and transport (SGD & DOAP)</div> <div>Identify and describe acute and chronic inflammation in gross and microscopic specimens</div> <div>SDL Family report book</div> <div>Describe Court procedures</div>
Tue	MI 8.5 & 8.6 Define and classify hospital waste Describe Classification of hospital waste and appropriate methods of disposal Describe various methods of treatment of hospital waste Describe laws related to hospital waste management (L6) Integrated with Community Medicine & General		Describe and discuss Cell death- types, mechanisms, necrosis, apoptosis (basic as contrasted with necrosis), autolysis; Describe and discuss the mechanisms of cellular aging and apoptosis PA 2.4,2.7		Describe Dying Declaration & Dying Deposition • Describe the latest decisions/notifications/resolutions/ circulars/standing orders related to medico-legal practice issued by Courts/Government authorities etc. FM1.7+FM1.8B	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	surgery(VI)					
Wed	Describe the factors that affect the metabolic response to injury. SU 1.2		Describe the methods of organizing health promotion and education and counselling activities at individual family and community settings. CM 4.2		Describe general principles of mechanism of drug action (part 1) (pharmacodynamics) PH 1.5	including issue of Summons, conduct money, types of witnesses, recording of evidence oath, affirmation, examination in chief, cross examination, re-examination and court questions, recording of evidence & conduct of doctor in witness box 1.5, MOOT COURT Role-play
Thu	Describe the pathogenesis and pathology of amyloidosis; Identify and describe amyloidosis in a pathology specimen PA3.1,3.2		Define, describe and discuss death and its types including somatic/clinical/cellular, molecular and brain-death, Cortical Death and Brainstem Death • Describe and discuss natural and unnatural deaths • Describe and discuss issues related to sudden natural deaths • Describe salient features of the Organ Transplantation and The Human Organ Transplant (Amendment) Act 2011 and discuss ethical issues regarding organ donation 2.1+2.2+2.3+2.4 Integrated with Pathology			
Fri	Describe general principles of mechanism of drug action (part 2) (pharmacodynamics) PH 1.5		SDL(2): Biomedical Waste MI 8.5, 8.6		PA4.1 Define and describe the general features of acute and chronic inflammation including stimuli, vascular and cellular events	
Sat	Describe the physiology of ovulation, menstruation, fertilization, implantation and	9 am – 11 am SGD Describe the	11 am – 1 pm Pandemic module 2.2 Emerging and		Extracurricular activities	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	gametogenesis OG3.1	<p>medico - legal issues in relation to family violence, violation of human rights, NHRC and doctors</p> <ul style="list-style-type: none"> • Enumerate rights, privileges and duties of a Registered Medical Practitioner. • Discuss doctor-patient relationship: professional secrecy and privileged communication <p>4.8+4.9+4.24</p>	Re-emerging infections, early identification and control of new infections (Part 1)		
--	---------------------	--	---	--	--

Week:4 (April 26 - May 1)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Stage heart failure. IM 1.4. Integrated with Pathology, Physiology		Describe and discuss the following:		MI 1.7 & 1.8 Describe the mechanisms of immunity and response	SGD:

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

			essential medicines, fixed dose combinations, over the counter drugs, herbal medicines. PH 1.59		of the host immune system to infections Describe the principles in immunity (L7) Integrated with Pathology(HI) & Pediatrics(VI)	Describe drugs of abuse (dependence, addiction, stimulants, depressants, psychedelics, drugs used for criminal offences); Describe the process and mechanism of drug deaddiction PH 1.22, 1.23
Tue	MI 1.9 Describe antigens and concepts involved in vaccine development. Discuss the immunological basis of vaccines and describe the Universal Immunisation schedule (L8) Integrated with Pathology(HI) & Biochemistry, Pediatrics(VI)		PA4.4 Identify and describe acute and chronic inflammation in gross and microscopic specimens		Discuss moment of death, modes of death - coma, asphyxia and Syncope • Discuss presumption of death and survivorship • Describe and discuss suspended animation 2.5+2.6+2.7	MI 8.15 Precipitation and Agglutination + MI 8.15 ELISA, Immunofluorescence, Westernblot, Rapid test, CLIA (SGD & DOAP)
Wed	Describe basic concepts of perioperative care. SU 1.3		Describe the methods of nutritional surveillance, principles of nutritional education and rehabilitation in the context of sociocultural factors. CM 5.5 Integrated with General Medicine, Paediatrics		Describe principles of pharmacovigilance & ADR reporting systems Define, identify and describe the management of ADR PH 1.6, 1.7	PA 6.7 SDL: Identify and describe the gross and microscopic features of infarction in a pathologic specimen. Survey clinical and lab parameter of a patient admitted with the diagnosis of MI
Thu	PA5.1 Define and describe the process of repair and regeneration including wound healing and its types		Describe and discuss postmortem changes including signs of death, cooling of body, post-mortem lividity, rigor mortis, cadaveric spasm, cold stiffening and heat stiffening			DOAP

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

			2.8			
Fri	Describe mechanisms of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs(Part 1) PH 1.13		SDL(3): MI1.8 Antigen		PA6.1,PA6.2 Define and describe edema, its types, pathogenesis and clinical correlation; Define and describe hyperemia, congestion, hemorrhage	Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data. CM 6.2 Integrated with General medicine, Paediatrics Select appropriate cause of death in a particular scenario by referring ICD 10 code • Write a correct cause of death certificate as per ICD 10 document, 1.10, 1.11
Sat	Holiday					

Week:5 (May 3 – May 8)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Describe, discuss and differentiate the processes involved in R Vs L heart failure, systolic vs diastolic failure. IM 1.5 Integrated with Pathology, Physiology		Describe mechanisms of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs(Part 2) PH 1.13		MI 1.10 Describe the immunological mechanisms in immunological disorder (hypersensitivity, autoimmune disorders and immunodeficiency states) and discuss the laboratory	SGD: Describe mechanisms of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

					methods used in detection(L9) Integrated with Pathology(HI) & Pediatrics(VI)	autacoids, including: anti- histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine (Part 1) PH 1.16
Tue	MI 1.11 Describe the immunological mechanisms of transplantation and tumor immunity Describe the immune response to cancer Describe the HLA system and the immune principles involved in transplant and mechanism of transplant rejection Discuss the Principles of immunosuppressive therapy. Enumerate Indications, describe surgical principles, management of organ transplantation (L10) Integrated with Pathology, Pharmacology(HI)& General Surgery (VI)		PA6.3 Define and describe shock, its pathogenesis and its stages		Describe putrefaction, mummification, adipocere and maceration 2.9	MI 1.2 Gram staining (DOAP) PA8.1,8.2,8.3 SDL: Describe the diagnostic role of cytology and its application in clinical care; Describe the basis of exfoliative cytology including the technique & stains used; Observe a diagnostic cytology and its staining and interpret the specimen. Visit FNAC clinic and observe the procedure.
Wed	Describe Pathophysiology of shock, types of shock & principles of resuscitation including fluid replacement and monitoring. SU 2.1		Formulate a research question for a study. CM 6.1, Integrated with General Medicine, Paediatrics		Describe mechanisms of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs(Part 3) PH 1.13	DOAP Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs. CM6.3
Thu	PA6.4		Discuss estimation of time			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	Define and describe normal haemostasis and the etiopathogenesis and consequences of thrombosis		since death 2.10			Integrated with General medicine, Paediatrics
Fri	Describe mechanisms of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs(Part 4) PH 1.13		MI 1.9 Explain the components of the Universal immunization Program. Explain the epidemiology of Vaccine preventable diseases Vaccine description with regard to strain used, dose, route, schedule, risks, benefits and side effects Define cold chain and discuss the methods of safe storage and handling of vaccines Discuss immunization in special situations – HIV positive children, immunodeficiency, preterm, organ transplants, those who received blood and blood products, splenectomised children, adolescents, travelers (L11) Integrated with Community Medicine & Pediatrics(VI)		PA6.5,6.6 Define and describe embolism and its causes and common types; Define and describe Ischaemia/infarction its types, etiology, morphologic changes and clinical effects	Demonstrate respect to the directions of courts, while appearing as witness for recording of evidence under oath or affirmation, examination in chief, cross examination, re-examination and court questions, recording of evidence, 2.29
Sat	Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis OG4.1	9 am – 11 am SGD Foundation of Communication AETCOM 1 (part 1)	11 am – 1 pm Pandemic module 2.2 Emerging and Re-emerging infections, early identification and		Extracurricular activities	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

			control of new infections (Part 2)		
--	--	--	------------------------------------	--	--

Week: 6 (May 10 – May 15)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations. IM 1.6 . Integrated with Pathology, Physiology		Describe mechanisms of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs (Part 1) PH 1.14		MI 6.1 Describe the etio-pathogenesis and laboratory diagnosis of upper and lower respiratory tract infections Define and describe the etiology of pneumonia & Morphology of causative agents (L12) Integrated with Pathology, (HI) & General Medicine (VI)	SGD: Describe mechanisms of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine (part 2) PH 1.16
Tue	(SDL4) MI 6.1 Bacterial pharyngitis: Streptococcus pyogenes pharyngitis, diphtheria and others		Define and classify neoplasia. Describe the characteristics of neoplasia including gross, microscopy, biologic, behaviour and spread. Differentiate between benign from malignant neoplasm PA 7.1		Describe special protocols for conduction of medico-legal autopsies in cases of death in custody or following violation of human rights as per National Human Rights Commission Guidelines 2.15	MI 1.1, 1.2, 8.10, 8.15 Perform and identify the different causative agents of Infectious diseases by ZN Stain, Stool microscopy (SGD & DOAP) PA 13.2 SDL: Describe the role of anticoagulants in

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Wed	Describe the clinical features of shock and its appropriate treatment. SU 2.2		Define Epidemiology and describe and enumerate the principles, concepts and uses. CM 7.1, Integrated with General Medicine		Describe mechanisms of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs (Part 2) PH 1.14	<div>haematology. Visit collection room and observe phlebotomy procedure.</div> <div>SDL Family report book</div> <div>Describe and discuss autopsy procedures including post-mortem examination, different types of autopsies, aims and objectives of post-mortem examination • Describe the legal requirements to conduct post-mortem examination and procedures to conduct medico-legal post-mortem examination, 2.11, 2.12, (Mortuary block)</div>
Thu	PA7.2 Describe the molecular basis of cancer		Describe and discuss examination of mutilated bodies or fragments, charred bones and bundle of bones Describe and discuss exhumation 2.16+2.17			
Fri	Holiday					
Sat						

Week: 7 (May 17 –May 22)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Enumerate, describe and discuss the factors that exacerbate heart failure including ischemia arrhythmias anemia thyrotoxicosis		Describe mechanisms of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs (part		MI 6.2 & 6.3 Discuss and describe the aetiology of various kinds of pneumonia and their microbiology Describe community	<div>SGD: Describe the mechanisms of action, types, doses, side effects, indications</div>

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	dietary factors drugs etc. IM 1.7. Integrated with Pathology, Physiology		3) PH 1.14		acquired pneumonia, nosocomial pneumonia (L13) Integrated with Pathology, (HI) & Anatomy, General Medicine (VI)	and contraindications of uterine relaxants and stimulants PH 1.41
						Assesment
Tue	MI 6.3 Describe the etiology of lung abscess and OAD and bronchiectasis (L14) Integrated with Pathology (HI) & General Medicine, Physiology(VI)		PA7.3 Enumerate carcinogens and describe the process of carcinogenesis		SDL Crime Scene Investigation:-Describe and discuss the objectives of crime scene visit, the duties & responsibilities of doctors on crime scene and the reconstruction of sequence of events after crime scene investigation 2.18	PA 13.5,14.3 Perform, Identify and describe the peripheral blood picture in Anemia; Identify and describe the peripheral smear in microcytic anemia
						DOAP Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion. CM6.4 Integrated with General medicine, Paediatrics
Wed	Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care. SU 2.3		Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and noncommunicable diseases. CM 7.2, Integrated with General Medicine		Describe mechanisms of action, types, doses, side effects, indications and contraindications of skeletal muscle relaxants PH 1.15	Describe and discuss obscure autopsy • Describe and discuss examination of clothing, preservation of viscera on post-mortem examination for chemical analysis and other medico-legal purposes, post-mortem
Thu	PA7.4,7.5 Describe the effects of tumor on the host including paraneoplastic syndrome; Describe immunology and the immune response to cancer		Investigation of anaesthetic, operative deaths:Describe and discuss special protocols for conduction of autopsy and for collection, preservation and dispatch of related material			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

			evidences 2.19, integrated with Anaesthesiology, Surgery			artifacts, 2.13, 2.14, (Mortuary block)
Fri	Describe the mechanisms of action, types, doses, side effects, indications and contraindications of local anesthetics PH 1.17		MI 6.1 & 8.16 Define and describe the etiology, types of tuberculosis. Morphology, microscopic appearance of M. TB. Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis of pulmonary and extra pulmonary forms. Discuss and describe the impact of co infection with HIV and other comorbid conditions like diabetes on the natural history of tuberculosis (L15) Integrated with Respiratory Medicine (VI)		PA9.1 Describe the principles and mechanisms involved in immunity	
Sat	Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care OG5.1	9 am – 11 am SGD Foundation of Communication AETCOM 1 (part 2)	11 am – 1 pm Pandemic module 2.2 Emerging and Re-emerging infections, early identification and control of new infections (Part 3)		Extracurricular activities	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Week: 8 (May 24 – May 29)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Describe and discuss the pathogenesis and development of common arrhythmias involved in heart failure particularly atrial fibrillation. IM 1.8. Integrated with Pathology, Physiology		Describe the mechanisms of action, types, doses, side effects, indications and contraindications of general anesthetics, and pre-anesthetic medications (part 1, integrated with Anaesthesia) PH 1.18		MI 6.1 & 8.16 Discuss the various diagnostic tools for childhood tuberculosis Describe the epidemiology, the predisposing factors and microbial factors that determine resistance to drugs Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing Discuss the various samples for demonstrating the organism eg Gastric Aspirate, Sputum,	<div>Formative Assessment</div> <div>MI 3.2 Identify the common etiologic agents of diarrhea and dysentery Perform and interpret stool examination including Hanging Drop. Identify Vibrio cholerae in a hanging drop specimen (SGD & DOAP)</div> <div>PA15.3 Identify and describe the peripheral blood picture of macrocytic anemia</div> <div>DOAP Define, calculate and interpret morbidity and mortality indicators based on given set of data. CM7.4</div>

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

					CSF, FNAC Enumerate the indications and Discuss the limitation of methods of culturing M. tuberculosis (L16) Integrated with Pediatrics, Respiratory Medicine, General Medicine(VI)	Enumerate and evaluate the need of screening tests. CM7.6 Integrated with General medicine
Tue	MI 6.1, 6.3, 1.2, 8.16 Discuss the various regimens for management of Tuberculosis as per National Guidelines Describe and discuss the origins, indications of BCG vaccine (L17) Integrated with Pediatrics,Respiratory Medicine, General Medicine , Community Medicine(VI)		Describe the principles and mechanisms involved in immunity PA9.1 PA9.2,9.3 Describe the principles and mechanisms involved in immunity; Describe the mechanism of hypersensitivity reactions; Describe the HLA system and the immune principles Describe the involved in transplant and mechanism of transplant rejection Describe the involved in transplant and mechanism of transplant rejection involved in transplant and mechanism of transplant rejection INTG:MICRO		Mechanical asphyxia: Define, classify and describe asphyxia and medico -legal interpretation of post -mortem findings in asphyxial deaths 2.20	Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy, FM 2.28 (Mortuary block)
Wed	Holiday					
Thu	PA9.4,9.5,9.7		Mechanical asphyxia: Describe			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	Define autoimmunity. Enumerate autoimmune disorders; Define and describe the pathogenesis of systemic Lupus Erythematosus Define and describe the pathogenesis of other common autoimmune diseases		and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material 2.21			
Fri	Describe the mechanisms of action, types, doses, side effects, indications and contraindications of general anesthetics, and pre-anesthetic medications (part 2, integrated with Anaesthesia) PH 1.18		MI 3.1 Enumerate the microbial agents causing diarrhea and dysentery. Describe morphology and diagnostic modalities of these agents Describe and discuss the etiology of acute and chronic diarrhea - infectious causes (L18) Integrated with Pathology (HI) & Pediatrics, General Medicine (VI)		Define and describe the pathogenesis and pathology of HIV and AIDS PA 9.6 INTG:MICRO	
Sat	Determine maternal high risk factors and verify immunization status OG5.2	9 am – 11 am SGD Foundation of Communication AETCOM 1 (part 3)	11 am – 1 pm Pandemic module 2.3 Sample Collection, Microbial diagnosis, Serologic tests and their performance parameters (Part 1)		Extracurricular activities	

Week: 9 (May 31 – Jun 5)

	8 am – 9 am	9 am –	12 noon – 1 pm	1 pm –	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm

			with General Medicine, Paediatrics		mellitus, thyroid disorders and osteoporosis) (part 3, Integrated with General Medicine) PH 1.36	
Thu	PA 24.2,24.3 Describe the etiology, pathogenesis, pathology, microbiology, clinical and microscopic features of peptic ulcer disease; Describe and identify the microscopic features of peptic ulcer					
Fri	Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis) (part 4, Integrated with General Medicine) PH 1.36		MI 2.2 Describe the classification etio-pathogenesis, complications, clinical feature, discuss the diagnostic modalities & treatment of Infective endocarditis in adults & in children. Describe and discuss the aetiology, microbiology, pathogenies and clinical evolution of rheumatic fever, criteria, degree of rheumatic activity and rheumatic valvular heart disease and its complications including infective endocarditis (L38) Integrated with Pathology (HI) & pediatrics, Physiology, General Medicine (VI)		PA 24.4 Describe and etiology and pathogenesis and pathologic features of carcinoma of the stomach	
Sat	Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage	9 am – 11 am SGD Working in a health care team AETCOM 4: (part 2)	11 am - 1 pm			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

in pregnancy OG10.1				
---------------------	--	--	--	--

Week: 18 (Aug 2 – Aug 7)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Define the various acute coronary syndromes and describe their evolution, natural history and outcomes. IM 2.5. Integrated with Pathology		Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis) (part 5 Integrated with General Medicine) PH 1.36		MI 2.3 List the common microbial agents causing anemia. Describe the morphology, mode of infection and discuss the pathogenesis. clinical course, diagnosis and prevention and treatment of common microbial agents causing Anemia (L39) Integrated with Pathology (HI) & General Medicine(VI)	<div style="background-color: #00b0f0; color: black; padding: 5px;">DOAP: CLINICAL PHARMACY Dosage forms / Drug delivery devices / Drug administration technique (Part 3)</div> <div style="background-color: #ffff00; color: black; padding: 5px;">MI 4.3, 8.10, 8.15 Identify candida species in fungal scrapings and KOH mount (SGD & DOAP)</div> <div style="background-color: #90ee90; color: black; padding: 5px;">Pa 23.1-23.3Describe abnormal urinary findings in disease states and identify and describe common urinary abnormalities in a clinical specimen;</div>
Tue	MI 2.4 & 2.5 Describe the etiology, clinical features, the laboratory diagnosis & treatment of kalaazar, malaria, filariasis and other common parasites prevalent in India-Part 1 (L40) Integrated with Pathology, Pharmacology (HI) & General Medicine(VI)		PA 24.5,24.6 Describe and etiology and pathogenesis and pathologic features of Tuberculosis of the intestine; Describe and etiology and pathogenesis and pathologic and distinguishing features of Inflammatory bowel disease			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Wed	Elicit, document and present a history in a patient presenting with wounds. SU 5.2		Describe the principles of management of information systems. CM 8.7		Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used as sex hormones, their analogues and anterior Pituitary hormone PH 1.37	Describe abnormal findings in body fluids in various disease states; Describe and interpret the abnormalities in a panel containing semen analysis, thyroid function tests, renal function tests or liver function tests
Thu	PA 24.7 Describe the etiology, pathogenesis, pathology and distinguishing features of carcinoma of the colon					
Fri	Describe the mechanism of action, types, doses, side effects, indications and contraindications of Corticosteroids (part 1) PH 1.38		MI 2.4 & 2.5 Describe the etiology, clinical features, the laboratory diagnosis & treatment of kalaazar, malaria, filariasis and other common parasites prevalent in India-Part 2 (L41) Integrated with Pathology, Pharmacology (HI) & General Medicine(VI)		PA 25.1,25.2 Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia; Describe the pathophysiology and pathologic changes seen in hepatic failure and their clinical manifestations, complications and consequences INTG: BIOCHEM, PHYSIOLOGY	
Sat	Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management OG10.2	9 am – 11 am SGD Clinical research & Ethics: Discuss human experimentation	11 am – 1 pm			

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

		including clinical trials, 4.25, Integrated with Pharmacology			
--	--	---	--	--	--

Week: 19 (Aug 9 – Aug 14)

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram. IM 2.13		Describe the mechanism of action, types, doses, side effects, indications and contraindications of Corticosteroids (part 2) PH 1.38		MI 5.1, 5.2, 5.3 & 8.15 Describe the etiology, pathogenesis and diagnosis of cysticercosis (L42) Integrated with Pathology (HI) & General Medicine (VI)	<div>DOAP: CLINICAL PHARMACY Dosage forms / Drug delivery devices Drug administration technique (Part 4)</div> <div>MI 2.2 Identify the microbial agents causing Rheumatic Heart Disease & infective Endocarditis (SGD & DOAP)</div> <div>PA 24.2-3 Describe the etiology, pathogenesis, pathology, microbiology, clinical and microscopic</div>
Tue	MI 8.3 Describe the role of oncogenic viruses in the evolution of virus associated malignancy (L43)		PA 25.3 Describe the etiology and pathogenesis of viral and toxic hepatitis: distinguish the causes of hepatitis based on the clinical and laboratory features. Describe the pathology, complications and consequences of hepatitis			
Wed	Differentiate the various types of wounds, plan and observe management of wounds. SU 5.3		Define and describe the principles of Demography, Demographic cycle, Vital statistics. CM 9.1 Enumerate and describe the causes of declining sex ratio and its social and health implications K KH Y Small group discussion, Lecture Written / Viva voce CM 9.3		Describe mechanism of action, types, doses, side effects, indications and contraindications the drugs used for contraception (Part 1) PH 1.39	

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Thu	PA 25.4,25.5 Describe the pathophysiology, pathology and progression of alcoholic liver disease including cirrhosis; Describe the etiology, pathogenesis and complications of portal hypertension					features of peptic ulcer disease; Describe and identify the microscopic features of peptic ulcer
Fri	Describe mechanism of action, types, doses, side effects, indications and contraindications the drugs used for contraception (Part 2) PH 1.39		MI 5.1, 5.2 & 5.3 Describe the etiology, pathogenesis and discuss the laboratory diagnosis of meningitis and encephalitis. Describe the etiology, types of meningitis Distinguish bacterial, viral and tuberculous meningitis. (L44) Integrated with Pathology (HI) & General Medicine, Pediatrics, Respiratory Medicine(VI)		PA 25.4 Describe the pathophysiology, pathology and progression of alcoholic liver disease including cirrhosis	
Sat	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies OG11.1	9 am – 11 am SGD Discuss the constitution and functions of ethics committees, 4.26, integrated with Pharmacology	11 am – 1 pm			

Week: 20 (Aug 16 – Aug 21)

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

	8 am – 9 am	9 am – 12 noon (Clinical posting)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
Mon	Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome. IM 2.14		SDL Describe mechanism of action, types, doses, side effects, indications and contraindications of 1. Drugs used in the treatment of infertility, and 2. Drugs used in erectile dysfunction PH 1.40		MI 5.1, 5.3 & 8.6 Discuss the etio-pathogenesis, clinical features, management and prevention of Poliomyelitis in children (L45) Integrated with Pediatrics(VI)	<div>DOAP: CLINICAL PHARMACY Pharmaceutical calculations PH 2.4</div>
Tue	MI 8.1 & 8.4 Enumerate the microbial agents and their vectors causing Zoonotic diseases. Describe the morphology, mode of transmission, pathogenesis and discuss the clinical course laboratory diagnosis and Prevention (L46) Integrated with Community Medicine & General Medicine (VI)		PA 26.1,26.2 Define and describe the etiology, types, pathogenesis, stages, morphology and complications of pneumonia; Describe the etiology, gross and microscopic appearance and complications of lung abscess			<div>MI 2.6 Identify the causative agent of malaria and filariasis. Interpret a malarial smear (SGD & DOAP)</div> <div>PA 24.4 Describe and etiology and pathogenesis and pathologic features of carcinoma of the stomach</div>
Wed	Define and describe the aetiology and pathogenesis of surgical Infections. SU 6.1		Enumerate and describe the causes and consequences of population explosion and population dynamics of India. CM 9.4		SDL Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in acid-peptic disease and GERD PH 1.34	
Thu	Holiday					

Medical College, Kolkata
Year planner for second professional MBBS (Phase II) curriculum 2021

Fri	<p>SDL Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used as antiemetics and prokinetics; antidiarrheals; laxatives; inflammatory bowel disease; irritable bowel disorders, biliary and pancreatic diseases (part 1) PH 1.34</p>		<p>MI 8.1 Describe and discuss the response and the influence of host immune status, risk factors and comorbidities on zoonotic disease (eg. Leptospirosis, Rabies) and non febrile infectious disease (eg. Tetanus). Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (L47) Integrated with Community Medicine & General Medicine (VI)</p>		<p>PA 26.3 Describe the etiology, gross and microscopic appearance and complications of lung abscess INTG: RESPIRATORY MED</p>	
Sat	<p>Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia. OG12.1</p>	<p>9 am – 11 am</p> <p>SDL Describe and discuss ethical guidelines for biomedical research on human subjects and animals.4.27, Integrated with Pharmacology</p>	<p>11 am – 1 pm</p>			

Week: 21 (Aug 23 – Aug 28)

	8 am – 9 am	9 am – 12 noon (Clinical)	12 noon – 1 pm	1 pm – 1:30 pm (Recess)	1:30 pm – 2:30 pm	2:30 pm – 4:30 pm
